

# Harikrishnan Aneesh

Full Stack Developer

Kochi, Kerala | +91-6282228990 | harikrishnananish0@gmail.com | LinkedIn | GitHub | Portfolio

## SUMMARY

Full stack developer with hands-on experience building and deploying real-world applications. Proficient in creating dynamic user interfaces with React, managing server-side logic using Node.js and Express, and integrating advanced features like AI content generation and blockchain smart contracts. Passionate about turning ideas into interactive, problem-solving tools through clean code and modern development practices.

## TECHNICAL SKILLS

- **Frontend:** React.js, JavaScript, HTML, CSS, Tailwind CSS, Material-UI
- **Backend:** Node.js, Express.js, FastAPI
- **Database & APIs:** MongoDB, REST APIs, OpenAI API
- **Blockchain:** Solidity (Basic), Hardhat, MetaMask
- **Tools:** Git, Vercel, Render, Postman

## PROJECTS

- **AI-Powered Autobiography Generator** 2025  
Major Project – Full Stack Developer      Next.js, FastAPI, Python, React, OpenAI API Live Demo – Source Code
  - Developed a full-stack AI application that generates personalized autobiographies based on user inputs.
  - Designed a responsive UI using Next.js and React, and implemented FastAPI backend for real-time content generation.
  - Integrated OpenAI API along with speech-to-text and image captioning features to enhance accessibility.
- **Crowdfunding dApp** 2025  
Personal Project – Blockchain Developer      Solidity, React, Hardhat, Vite, Material-UI, MetaMask Live Demo – Source Code
  - Built a decentralized crowdfunding platform allowing users to create, view, and fund blockchain-based campaigns.
  - Implemented ETH-based donations with image uploads, creator-controlled campaign closures, and donation history.
  - Designed a responsive interface with MetaMask wallet integration and deployed smart contracts using Hardhat.
- **MERN Food Delivery Website** 2025  
Client Project – Full Stack Developer      MongoDB, Express.js, React, Node.js Live Demo – Source Code
  - Created a fully functional food delivery app with features like authentication, cart, checkout, and admin controls.
  - Designed the frontend in React and developed backend REST APIs using Node.js and Express.js.
  - Structured the database in MongoDB to handle users, menu items, and order tracking in real time.

## EXPERIENCE

- **AI/ML Intern** May 2024 – Jul 2024  
IBM SkillsBuild via CSRBOX Remote
  - Collaborated with chatbot team to design user flows and logic using IBM Watson Assistant
  - Practiced Agile methodology, Git version control, and real-world dev tools in project collaboration
  - Technologies Used: JavaScript, Chatbot Design, REST APIs, Agile, Git

## EDUCATION

- **Cochin University of Science and Technology** Kochi, Kerala  
B.Tech in Computer Science and Engineering – CGPA: 7.3 Oct 2021 – May 2025
